

Solid Surface
Wood Pulp & Paper

Description:

Versatile and inviting, composite countertops made with wood pulp and paper have a warm, neutral look that fits well with most decorating styles. Special features can be incorporated into these countertops such as a drain board or backsplashes. Paperstone Certified is made with 100% post consumer waste and Paperstone Original uses 50% post consumer waste paper.

Solid Surface
Wood Pulp & Paper

Description:

Richlite has been used in commercial and industrial applications for years, but is now available in colors that can fit in your contemporary or traditional residential interior. Richlite is a wood based fiber and plastic composite that has unique characteristics that make it an affordable green alternative to stone or solid surface countertops.

Solid Surface
Recycled Glass

Description:

Simply beautiful. Vetrazzo's® artful surfaces are incredibly strong, durable, and a joy to live with, now and for a long, long time. Made of 100% recycled glass and concrete, the final product contains 85% post-consumer recycled content. Vetrazzo® is an extremely durable and easy-to-maintain surface. It's comparable to granite in strength, scratch resistance, heat resistance, durability, and care & maintenance.

Solid Surface
Recycled Glass

Description:

Elegant. Made from 100% recycled glass and concrete the final product contains 75% post-consumer recycled content. This eye-catching surface can be used in many design schemes. The palette of available colors includes neutrals, earth tones, pastel shades, and bright colors. IceStone's® durable surfaces are strong like granite, not as porous as marble and maintained like natural stone.

squak mountain
NATURAL BEAUTY, REDEFINED

Solid Surface
Concrete/Paper Mix

Description:

We are excited to offer Squak Mountain Stone, a hand-made material containing fly ash, recycled glass, recycled paper, Portland Cement and non-toxic mineral pigments for color. It has the look of natural soapstone or concrete but with greater stain resistance and eco contents. Pre-cast standard sizes make this an affordable option over custom poured concrete countertops. Have a look at our showroom installations and see if you can find letters from the recycled paper!

FINE BAMBOO FLOORING, PANELS & VENEER

Sheet
Solid Bamboo

Description:

Did you know that Bamboo also makes a fabulous eco countertop? Bamboo plywood is made from rapidly renewable bamboo, using adhesives that are both strong and emissions free. Bamboo plywood can be cut and sanded using conventional woodworking equipment. It can also be glued or mechanically fastened using the same materials and fasteners commonly used with wood. Bamboo is an open grained material and finishes exceptionally well.

Green Mountain Butcherblocks

Sheet Sustainable Wood

Solid wood countertops create a warm look and feel for a classic countertop. You can be assured that these countertops not only look sophisticated, but are also environmentally sound. The wood comes from reclaimed sources such as old vinegar vats or Healthy Forest Healthy Community (HFHC) lands a coalition of small land owners in the Pacific Northwest is committed to regional forest sustainability. Using our range of natural oil finishes and sealers, you will have a beautiful, natural and sustainable countertop for years.

EQcountertops

Laminate EQ Laminate

Not just your average laminate. Your EQcountertop core is made of 100% pre-consumer recycled Sky-Blend™ particleboard and which uses no added urea formaldehyde in the manufacturing process.

The laminate surface of EQcountertops not only provides a durable, high-quality countertop surface, it's GREENGUARD-certified as well, which means significantly diminished harmful emissions. EQcountertops use biodegradable, water-based adhesives to bond the laminate to the particleboard.
